Petition	
<p>Requests the Director General to: work with IUCN Members and Commissions to raise international awareness to ensure co-responsibility of resource-rich countries in the conservation of migratory species; and provide technical and programmatic support for these efforts to strengthen initiatives and share conservation information. Requests the Director General and the Species Survival Commission to encourage the use of IUCN's expertise in monitoring the implementation of the Bern Convention and CMS. Urges all IUCN Members to cooperate in the conservation of migratory species and to share information that benefits their conservation Calls on Member States to support the implementation of the CMS African-Eurasian Migratory Landbird Action Plan. Urges IUCN State members to provide financial and technical assistance to countries with less capacity to gain more knowledge about the abundance, distribution, biology and threats to migratory species and to take conservation action. It calls upon all countries to promote the coordination of policies and measures to ensure the conservation of migratory bird species.</p>	
State	Fulfilment in Spain
Active	In process
Summary of actions carried out with effect in Spain	
<p>The Eurasian spoonbill, an emblem of nature conservation. (2016). Strategic Environmental Study. Waste Plan of Navarra 2017-2027. (2016) Includes the protection of migratory birds. Creation of an intergovernmental Action Group, which brings together efforts to tackle the killing, capture and illegal trade in birds. (2017). Report of the Manila Convention on Migratory Birds 2017 on preventing the killing, capture and illegal trade in migratory birds. (2017). Lucena Town Hall starts a campaign for the conservation of swallows, planes and swifts. (2017). Report by the Junta de Andalucía on the impact generated by the exploitation of olive groves in super-intensive farming on protected species in Andalusia. (2018). Report of the Junta de Andalucía "Environmental information of Andalusia talks about the different types of migratory birds that we can find depending on whether we are in one area of the community or another". (2018). "Uniting our voices for bird conservation" 12 May, World Migratory Bird Day. (2018) The Birds and Climate Program, the Migra Program, Project Lindus2, Spring Alive, the Erasmus program + "Empowering Teachers and Pupils for a Better Life through Nature" or the work developed by SEO/BirdLife's Bird Migration Center are some of the programs related to migratory birds in which the organization is currently working. Knowing their routes and the threats they suffer on their long journeys is fundamental for their conservation. A village wants to ban domestic cats. (2018). LIFE+ Guardians of Nature. They deal with illegal hunting. Cooperation in the international fight against illegal hunting of birds in Rome, at the joint meeting of the Bern Convention Focal Point Network and the Convention on Migratory Species (CMS) Working Group for the eradication of illegal hunting of birds. (2019). SEO BirdLife studies the nature conservation "gaps" in the Community and proposes ten measures. (2019). Red Eléctrica ratifies in Tarifa its commitment to the protection and conservation of birds. (2019). Landa Garapenerako Euskadi Programme - 2015-2020 Rural Development Programme. (2019) In "5.2.7.3.5. M10.1.6 - Conservation of old vineyards", migratory birds are being protected, among others. RTVE publishes an article on the major threats to migratory birds. (2020).</p>
